

### **Waterfall, Summit and Granite Street Spur Trail Letterboxes**

Take West Street out of downtown Leominster and stay on it to the end. You will come to a gravel parking lot with a kiosk. Park in that lot and take the blue blazed trail uphill. You will come to a point where the trail bends off to the left marked by a blue arrow. Go straight instead on the grassy path and look for a wire fence on the right. When the wire fence ends look for a small trail that leads down to the rushing water. Take a few steps on the trail and look to the left for a stone wall. The Waterfall Letterbox is at the base of that stonewall, hidden in a niche by rocks.

Go back to the arrow and continue up the trail as it climbs North Monoosnoc Hill. . At times the trail is very rocky underfoot. Stay on the blue dot trail and eventually you will come to a lookout with a somewhat scenic view to the northeast. After the lookout turn and follow the blue dot trail further uphill. The path crosses large flat rocks in the trail and then enters the woods once more. When you re-enter the wooded area count 3 blue blazed trees on the right and then take 10 steps and look off to the right for a large flat rock behind a skinny pine tree. The Summit Letterbox is hidden behind that rock. Now return to the somewhat scenic overlook. This time turn and look for a yellow blazed trail leading uphill once more. Count 8 yellow dots on the right and look to the left for a triple trunked oak tree with one dead trunk and behind that, about 13 steps off the trail, a large boulder. The Granite Street Spur Trail Letterbox is behind that rock hidden by sticks and flat rocks. After finding this box return to your car the way you came.
